

Biocidal Products Regulation

Award-Winning Consultancy Providing Innovative Solutions to Meet Regulatory and Environmental Challenges

Established Reputation within the Biocides Sector

CSI has successfully obtained listing and received positive recommendations for listing on Annex I to the Biocidal Products Directive for several active substances, including one of the first new active substances. Numerous biocidal product dossiers, including frame formulations, prepared and submitted by CSI, have received authorisation throughout Europe.

CSI has extensive experience of the different biocidal product types through participation in the four existing active substance review lists.

Registration Dossier Strategy, Preparation and Submission

CSI can help prepare active substance and product dossiers within the time period permitted. CSI staff are experienced in data gap analysis, literature search and evaluation, preparation of data waivers based on (Q)SARs, read across arguments, generation of frame formulations and acceptable justifications.

Study Monitoring, Data Review and Evaluation

Identification of studies required to support registration objectives. Placement and monitoring of tests at contract research organisations (CROs). Our multi-disciplinary team of scientists support registration activities by providing expert data review and evaluation for toxicology, environmental toxicology, product chemistry, analytical chemistry, efficacy and environmental fate of subject products.

Technical Equivalence

With our expertise in analytical chemistry, CSI has successfully prepared and submitted numerous technical equivalence reports containing multiple sources of the same active substance.

Hazard, Exposure and Risk Assessments for Human Health and Environment

Extensive experience in all aspects of human health and environmental assessment including, EU GHS CLP and SDS preparation. Application of various models, including for example: ConsExpo, BEAT, BPD TNsG, EUSES, ESD, and FOCUS.

Task Force Management

Senior CSI staff serve in administrative and lead technical roles representing clients in industry Task Forces.
