

EU Regulatory

Award-Winning Consultancy Providing Innovative Solutions to Meet Regulatory and Environmental Challenges

EU Regulatory Affairs

Regulatory and environmental strategies for plant protection products, biocides, specialty and industrial chemicals, human pharmaceuticals and animal health products.

Dossier Development and Submission

Preparation and submission of active substance and product dossiers for EU-wide and Member State registrations.

Data Development

Identification of required studies to support registration, data gap analysis, placement and monitoring of studies at contract research organizations (CROs), review and interpretation of study results, and Good Laboratory Practice (CLP) compliance consulting.

Task Force Representation / Administration

Extensive experience in co-ordination of industry task forces. Undertake both administrative and technical roles for task forces and consortia.

Toxicology and Chemistry Consultation

A multi-disciplinary team of CSI scientists supports registration activities by providing expert guidance on toxicology, ecotoxicology, product and residue chemistry, environmental fate, and efficacy.

Risk Assessment

Extensive experience in all aspects of human health and ecological risk assessment. Hazard identification, effects analysis, exposure assessment, and risk characterization.

Regulatory and Scientific Insights

Advise on emerging regulatory and scientific developments that may impact current and future registrations. Recommend approaches to bring client products into compliance with new and existing legislation.
